

The universal and ideal Support for daily patient transfer.

The DIANA patient lift is an ideal aid for transfer to the bath, to the toilet, or wherever the patient would like to go. The casters ensure a smooth transport and can be conveniently block by parking brakes. The lifting rod works reliably, continuously, as well as smooth and granted patients the highest possible security.

The transfer lift DIANA can help to make transfers safer and easier for you and the person that you are moving. The DIANA sling lift has for years been a guarantee for qualified care and satisfied patients in nursing homes and home care. For persons with limited mobility, it provides ergonomically correct lifting from any position.
